Targus Story

Targus

Company Background

For over 25 years, Targus, Inc. has been recognized as both the world's best-selling laptop carrying case and mobile accessories brand. Our goal is to provide our customers with unrivaled quality, superior service and access to the Targus brand wherever and whenever needed.

Global Expertise

As a truly global enterprise, Targus has 45 offices worldwide. With direct distribution in over 100 countries, our corporate customers enjoy timely product delivery to any location in the world.

Targus Corporate Office locations include: Africa, Asia, Australia, Canada, Europe, Latin America, Middle East and the United States.

Targus Customers include: Fortune 500 corporations, government and educational institutions, major retailers, consumers and eight of the world's top ten laptop computer manufacturers.

Our relationships with our private-label PC partners are especially important to Targus. We take pride in our long-standing partnerships with companies like HP, Lenovo, Toshiba and Dell. The relationships forged in this important sector have secured our position as the preferred supplier of private-label cases and accessories around the world.

We've Got You Covered

Targus prides itself on delivering a full complement of mobile accessories and cases designed to enhance your mobile life while working, traveling and playing. We understand that your mobile lifestyle depends on having uninterrupted access to your computing and communication tools. Our #1 selling line of professional laptop cases ensure the protection of your laptop while allowing you to express your individuality. Targus' case line includes a wide range of carrying cases, backpacks and rollers to protect your laptop along with cases for cameras, MP3 players, DVD players and camcorders.

Note: Cases and accessories marked with a red globe symbol in this brochure are products that are offered in all of our main regions throughout the world.

Laptop Protection and Quality

Targus is constantly raising the bar for quality laptop protection and security. The Targus patented SafePORT® Air Cushion System and patent-pending Dome Protection System™ offer the highest protection possible for your laptop.

Zip-Thru™ Checkpoint-Friendly System

Checkpoint-friendly laptop cases are designed to make air travel easier by reducing stress and wait time at airport security. The patent-pending Zip-Thru feature allows the laptop to remain inside the case for a clear x-ray scan. In addition to meeting airport security standards, these Zip-Thru cases provide the same level of laptop protection and convenient features as all Targus cases.

SafePORT® Air Cushion System

The SafePORT® Air Cushion System combines vented air cushioning and high-density foam padding in a single chamber. These specifically engineered polyurethane cushions line the bottom and sides of the laptop compartment for side and vertical impact protection. SafePORT® cushions float the laptop inside the chamber ensuring a snug fit while protecting against damage due to shifting. We equipped our first case with the SafePORT® Air Cushion System in 1997, and since then continue to refine the system creating a truly protective environment for your laptop.

Dome Protection System™

The Targus Dome Protection System™ (DPS) stands as another forward-thinking innovation in protection for Targus laptop cases. The DPS™ is a series of layered, shock-absorbing circles inserted into the walls of the laptop case, helping to minimize screen abrasions and cracks. Targus developed this system as customers cited increased interest in a technology that would help to minimize scratches and cracks to their laptop screens.

These two protection systems are offered in many of our case lines to ensure the safety of your laptop.

Global Support

Targus has built a complete global support structure with sales associates located throughout the world. With offices in 45 different countries, we are entrenched in the attitudes and lifestyles of each region. Our understanding of cultural diversity and our ability to meet the specific needs of each region is what makes Targus a truly global organization.

In addition to 45 global offices, Targus offers customer service in local languages throughout the world. And for our large corporate customers, the Targus Worldwide Global Customer Program provides additional support services.

Our Guarantee

What makes Targus cases and accessories stand apart? Years of quality manufacturing experience, innovation and customer feedback help to develop each of our case and accessory products.

At Targus, we craft cases that will endure the demands of our customers' schedules without losing their stylish appearance. That's why we take pride in our Lifetime Guarantee for all of our Targus branded laptop cases.

Today's mobile lifestyle depends on being able to function anywhere and anytime. Targus understands these needs and delivers cases and accessories designed to make your life a little easier.

Laptop Cases

Checkpoint-friendly laptop cases are designed to make air travel easier by reducing stress and wait time at airport security. The patent-pending Zip-Thru feature allows the laptop to remain inside the case for a clear x-ray scan. In addition to meeting airport security standards, this collection of Zip-Thru cases provides the same level of laptop protection and convenient features as all Targus cases.

① Laptop Compartment (for laptop only)

② Accessory and File Compartment

HOW IT WORKS

1 Place only the laptop in the clearly marked section

2 Store files, power adapters, and accessories in the secondary compartment—avoid stacking electronic items

3 Place the case on the airport conveyor belt and unzip the center section

4 Retrieve the case at the end of security screening

Zip-Thru Corporate Traveler Laptop Case

CUCT02UA155 SRP: \$99.99

- Split design separates laptop from accessories, to allow clear x-ray scanning
 - Features the patented SafePORT® Air Cushion System for maximum laptop protection
 - Includes zip-down workstation with business card holder, three pen loops, key clip, multiple accessory compartments and a dedicated file section to organize documents
 - Trolley pass-through attaches case to rolling luggage
- Exterior dimensions: 16.93" x 6.5" x 13.98"
Computer compartment dimensions: 14.33" x 1.69" x 11.81"
Weight: 3.74 lb

Zip-Thru Corporate Traveler Backpack

CUCT02B SRP: \$89.99

- Split design separates laptop from accessories, to allow clear x-ray scanning
 - Features the patented SafePORT® Air Cushion System for maximum laptop protection
