SRP: \$39.99

fits up to
15.4"
notebook

TARGUS PRIVACY FILTERS

Prevent onlookers from viewing valuable information on laptop and LCD monitors!

Targus Privacy Filters help protect your information!

Tiny vertical blinds on the surface of the screen narrow the viewing angle so data is only visible directly in front of the monitor up to 45 degrees away from the center of the screen.

Onlookers will only see a dark unclear screen when attempting to view the information from a side angle. In addition to providing security, the privacy filter also blocks the glare to help reduce eye strain.

The Targus Privacy Filter can be easily attached by using clear adhesive strips designed for LCD screens or with the included tab guides that stick to the edge of the LCD bezel to hold the filter in place. Users can position the tabs so the filter easily slides on and off.

Ⓞ TAA Compliant Ⓞ RoHS Compliant Ⓞ Anti-Glare

Highly portable and easy to use, the Targus privacy screen protects valuable information on a laptop and LCD monitor from onlookers.
